Join us for a presentation and conversation about the changes and challenges facing the people we serve in Portage County.

### **The session will cover**

- ✓ the changing role of PCBDD from a “provider of services” to a “link to services,”
- ✓ the challenges of attracting and retaining qualified providers to serve individuals in our county, and
- ✓ the positional changes within our organization to meet these demands.

We encourage you to take the opportunity to meet Gina Brown, our new Superintendent, and we welcome your feedback and concerns.
